STHAC GUITARS

An 'Evolutionary' Spirit!

'Evolutionary' – is the word! Why? Because we want to be known not

only for our innovative ideas and design, but also for our manufacturing know-how.

We are a young company with a strong knowledge of guitar building.

Some of us come from well-known and prestigious names in guitar manufacturing, for instance, Custom Shop Fender® to give just one example.

All our guitars are tailor-made and hand-finished. Were you to come to us, you would have the choice of buying either a guitar made to our careful specifications, or to use our Custom Shop in order to create the guitar of your choice.

We also want to stand out for the wide range of woods and finishes that you will be able to choose from including some more unusual ones. Our guitars are not only beautiful to look at but are characterised by their fabulous timbre and their amazing sustain that contribute to their exceptional sound.

Let's talk about the Virtuoso Deluxe SL Model – a "killer!" 5A flamed Maple top with a ONE piece mahogany back and an amazing neck! with a 3A flamed Maple Neck and a very nice Brazilian Rosewood Fingerboard!

Provided with the new SPEEDLOADER that doesn't require

Model, made for your bluesy mood, with its ONE piece Swamp Ash body like some Fender® 56/60... Music is at the heart of everything we do. Therefore we will only make a guitar for you that we would consider good enough for ourselves. This approach helps us to understand and evaluate the needs of today's guitar-players – your needs.

All our guitars are provided with Dean Markley Blue Steel™ strings and use DiMarzio® and Kinman® pickups.

the Tuner Keys anymore and two DiMarzio® humbuckers (carefully chosen after a mega-review of 63 DiMarzio® pickup combinations!) and what about the Texas Havana

Shop USA

www.sthacguitars.com

What makes us different is our total dedication to innovation and creativity in the world of the electric guitar.

We are convinced that, from a technological viewpoint, we are not evolving as we might and that we are going down the wrong road by over concentration on mass-production.

We want to return to the spirit of Lester William Polfus (Les Paul) and Leo Fender without whom Gibson® and Fender® would not exist, and nor would we.

Some models come with the new Floyd-Rose® SPEEDLOADER tremolo or the ORIGINAL version. The 'Evolutionary' conception and quality of the latest FLOYD-ROSE® SPEEDLOADER will astound you. Or why not opt for our Virtuoso SUSTAINER model with its SUSTAINER  technology to give you the power of Infinite Sustain...

This technology has already been adopted by the best guitarists in the world (Riggs / ROB ZOMBIE BAND, Danny Lohner / NINE INCH NAILS, Andreas Kisser / SEPULTURA, Steve Vai, Adrian Belew / KING CRIMSON, Robert Fripp / KING CRIMSON, Steve Lukather / TOTO, The Edge / U2, Reeves Gabrels / DAVID BOWIE BAND..., etc.).

You decided
to make
*The guitar
of your life!*

That which corresponds exactly to your desires, thank you to have chosen know-how STHAC.

Based on our electric guitar models make your own guitar with all your specifications like the neck shape, the radius fingerboard, the fret wire size and nut width, the pickups, the finishing color, the woods and hundred others options to suit your needs.

Whether you're a pro with hundreds gigs back, guitar lover or just a regular guitar maniac, we are here for you. At STHAC Guitars our mission is to provide the best quality products and service in the industry.

Virtuoso Deluxe SL

Virtuoso Deluxe

The Virtuoso Deluxe SL or the Virtuoso Deluxe is a stylish and rare guitar with its Transparent or Dye-Burst dress. It's a very versatile guitar and at the top on all styles from Jazz to Hard-Rock.
